

## Cell Phone Safe!

---

Protect yourself and your digital information!

- Phones are great for documenting and communicating, but can be used to track you just by having them ON (cellphone towers). You might want to leave it at home — your life is on that phone.
- If you are going to carry one, use a signal blocking pouch.
- Make a free signal blocking pouch during digital audit office hours:

1 - 4 pm

July 18, 19, 20th

SPACES Gallery

2220 Superior Viaduct

Cleveland, OH 44113

---

Other tips!

- Use at LEAST at 6 digit pin code on your phone, better to use 8-12 characters
- Do NOT use a finger print unlock.
- Make sure your phone uses encryption.
- Encrypt your messages! Use Signal App instead of txt messaging.
- Carry a cheap pay as you go phone instead of your main phone.
- Do not give out your password or give anyone permission to unlock your device.
- Plan a pre-arranged call with your buddy after an event.
